Step heading	Inter	28px mobile / 34px md	Medium	40px	Sub-section title
Serif accent line	Instrument Serif	Inherited / display scale	Normal	default	Italic accent for split headline
Monospace labels	JetBrains Mono	11px	Medium	default	UI metadata + count labels
Marquee stage count	Instrument Serif	30px	Regular	1	Large count in marquee

Key design behavior

The site uses a split-heading treatment: Inter for the bold sans headline and Instrument Serif in italic for the accent line.

Body copy mostly sits around 14?15px with relaxed line spacing for readability, while label and metadata text stays compact at 11?13px.

Buttons and navigation use medium-weight sans to keep the interface clean and modern without adding visual noise.

The overall design is editorial: modern sans for structure, serif accent for personality, mono for structure and technical cues.
